

Aeromedical transfer packing list

Air ambulance

- You may bring one rucksack and one cabin bag per passenger due to limited space onboard.
- Please inform the team in advance of how much luggage you plan to bring.
- Standard airline restrictions apply, including liquids and prohibited items.

Medical escort (commercial)

- Standard airline regulations apply for liquids, luggage, and restricted items.
- A sling, pushchair and car seat can be provided if needed.

You do not need to purchase additional equipment for the transfer. Lia's Wings will ensure that essential medical and care items are available for your child.

Premature babies

- One change of clothes (we can provide if needed)
- Nappies (we can provide if needed)
- Infant feed (please bring a one-day supply)
- Breast milk can be stored onboard (cool bag and fridge available). Please let us know in advance if you will be bringing breast milk so we can prepare accordingly.

Important Documents

- Please ensure you bring:
- Passport (or driving licence for domestic flights)
- Medical discharge report
- Copies of any medical records and scan reports. These documents are important for the receiving medical team.

Comfort items for the journey

- Snacks and water, particularly in case of delays
- Any comfort items for your child, such as a favourite toy or blanket
- Refreshments, books, and toys are also available onboard to help keep you and your child comfortable.

Additional support

If you have any specific requirements, please speak to the team in advance. We will always do our best to accommodate your needs and make the journey as smooth as possible.
