

Hospital  
air transfers  
for children

## Ensuring children can access the care they need

Lia's Wings is a national charity that provides hospital air transfers for children. We ensure that babies and critically ill children can access specialist treatment and care, wherever they are in the UK.

### We fly children for:

- Neonatal care
- Specialist investigations or treatment
- Urgent surgery including transplants
- Repatriation home from overseas or after specialist treatment
- Treatment overseas
